- Instrumentation Fittings, Valves and Tubing
- Calibration Equipment
- Local & Remote Pressure and Temperature Indicators
- 2/3/5 Valve Manifolds, Multiport Gauge Valves
- Instrumentation Tubing, Tools and Accessories
- Filtration, Regulation, Changeover Systems & Sampling

SERVICE CAPABILITIES

Well-Site Automation

- On-site product solutions for well-site automation and instrumentation needs
- Fully stocked trailers available with consigned inventory for 'real-time' satisfaction of product needs
- On-site inventory management to ensure product availability

Product Solutions

- Products available for diverse and difficult applications including methanol injection, chemical injection and lubrication systems
- Products available for high pressure systems up to 10,000 psi
- Experienced staff can assist with proper product selection for each application

Large Inventory Availability

- Conveniently located in the heart of the Marcellus and Utica shale fields
- Same day shipping available for most products to even the most remote locations
- Same day delivery service often available in urgent cases

On-site Training

- On-site training offered to technicians for tubing and fitting installation
- Certificates awarded to those upon course completion

ISN Member

- Myers & Co. is a certified ISN member
- ISN certification facilitates on-site access throughout Marcellus and Utica shale fields

Manufacturers

- SSP Fittings
- Ralston Instruments
- WIKA
- Control Air Inc.
- Hex Valve
- United Filtration
- SVF Flow Controls
- Malema Sensors
- GO Regulator
- TechLine Manufacturing

OEM

- Support OEM customers with cost effective product solutions
- Offer component kitting, custom tube bending and consignment inventory to maximize manufacturing efficiencies

Technical Assistance

- Myers & Co. is available for on-site meetings
- Experienced in areas of engineering, product selection and field service

Production

- Establish on-site stocking relationships with producers
- Work closely with well head instrumentation technicians and automation contractors
- Provide wide range of high quality products for use at well-site

Midstream

- Develop strategic alliances with transmission and midstream companies
- Work with engineers on product specifications and product selection
- Support technicians with daily field requirements

Distribution

- Continuously maintain a large inventory of pressure and temperature instrumentation products
- Utilize years of industry experience to provide exceptional service and product selection
